ESSENTIAL HOME

Hall 1 - Stand L38

Essential Home is an innovative mid-century modern furniture brand that takes important historical and cinematographic references from the 1930s and 1960s and turns them into unique furnishing pieces. What started out as 'Essentials' in 2015, a furniture collection by the mid-century lighting brand DelightFULL, quickly grew to be one of the most elegant representations of mid-century modern design, thus creating a new name, and a new brand, Essential Home.

"Soon we understood that this collection had a life of its own. Essential Home' eclectic style inspired us to create more and more. We could no longer keep it inside doors," said one of the designers involved in the creation of Essential Home.

Essential Home is currently based in Porto, Portugal, but its alluring designs are present in the most important interior design centers around the world, including London, Paris and New York.

Essential Home gathers inspiration not only from the glamorous Hollywood life of the 1940s, but also from the everyday life that defined that mid-century generation. Simple details such as the sleek lines of a futuristic 1960s chair, or retro ads that defined an era can be pinpointed in iconic pieces such as 'Monocles sideboard'.

TRASTES E CONTRASTES

Hall 18 - Stand C01

Founded in 1999, Trastes e Contrastes was born from the desire of Jorge Sá - who had been working for over twenty years in an upholstery company - together with a partner, to own his own business geared exclusively, at the time, to the important and distribution decorative fabrics.

Two years after founding the company and in response to requests from so many of their clients, the company began manufacturing upholstery and dedicated itself to this art since that time.

In 2007, it set its eyes on the internationalization of the company, taking a further ambitious yet conscientious step, in response to the economic doldrums of the country and of this sector in particular. And so, the company began taking part twice a year - in January and September - at "maison & objet", in Paris, initially with a small stand and a limited range of pieces. But the scope of the exhibition has grown year after year to the extent that 80% of the production is now destined for the international market, a percentage which is maintained stable to this day.
