COLMOL

Stand DG4a

We started our company in the year of 1972 thriving and aiming to be the best bedding manufacturer in Portugal and we still thrive for those goals by always being innovative, for example our company has their own signature style of springs which are not overly soft like a foam but not firm like iron springs it's the best of both worlds. We are a high quality luxurious bedding company who have reached the top of our field yet we keep developing and expanding our knowledge of what makes the perfect mattress for our clients. We are based in Portugal with around 80% of our manufactured products being delivered internationally for both domestic and professional areas such as hotels or homes. We believe in giving our clients the best quality for what they pay and we will always deliver that sort of quality because we truly care about how you sleep and what may be the healthiest choices for you. WE are part of two major teams, our office team and our production team, they both equally support each other and give out 100% of their abilities to do so. Without the office team we cannot find the specifications that meet our client and without our production team just like any factory we cannot create those wonderful products. We guarantee you will be resting as if you were on the clouds of heaven.
